BETTY AUSTIN

BETTY AUSTIN Cactus. The absolutely perfect dahlia. A Hybrid Cactus that is in a class by itself. One more year has only demonstrated that all over the country it is one of the earliest to bloom, a free and continuous bloomer. The flowers are full to the centre up to frost. Color, yellow at base of petal, blending to rosy carmine and rose, yellow at tips; reflex rose. The form, as shown by the color photograph reproduced above, is the ideal Hybrid Cactus, while the long slim stem holds the flower up to look you frankly in the face. The flowers are medium to large, about seven inches in diameter. The plant is a quick grower, of branching habit, about three to four feet high. A wonderful commercial cut flower and an ideal garden plant. It is entirely distinct and worthy of a place in every collection. Strong roots, \$3.00 each.

SPECIAL OFFER No. 1. We will send one strong root each of Rodman Wanamaker, Betty Austin and Rosalia Styles, shown in natural colors on 1st, 2nd and 3rd cover pages for \$28.00.

SPECIAL OFFER No. 2. One root each of the seven exquisite new dahlias shown in natural colors on 4th cover page and described on page 32, for \$13.00.

SPECIAL OFFER No. 3. One root each of Isabel Street, Mary Steffenson and Queen Elizabeth, as shown on colored insert pages, for \$4.00.

"Mecca" of Dahlia Lovers. More than 10,000 visitors weekly at the World's Largest Dahlia Farm

IN thanking our friends and customers for their generous patronage in the past; we also want to extend a cordial invitation to visit our farms next September and October.

We wish every dahlia lover could have seen our fields the past season. **"The finest ever"** was the unanimous opinion of the tens of thousands of visitors. And truly never before were they quite so fine; **one hundred (100) acres of the World's Best Dahlias.** The hot dry weather seemed to bring out the very finest shades, tints, and colors, and such profusion. We devote acres just to trial grounds, not only to thoroughly test out all varieties, but for the benefit and pleasure of all "dahlia enthusiasts."

On the following pages will be found **the plain truth** describing them as they grow with us, and the average color; for flowers vary in color at different seasons, on different soils, in different climates and under different conditions, so we take our colors at midseason.

We are glad to note the craze for size alone has about run out. A Dahlia now must have more than size to commend it. Of course we all like to exhibit a flower larger than ever before shown, but, nothing can take the place of those brilliantly colored beauties, or those exquisitely formed, delicately tinted, medium or even small sized flowers, with good stiff slender stems, that lend themselves most admirably to all kinds of decorations—garden, home, hall, business establishment or personal adornment. For after all it is only natural to love the beautiful and artistic, rather than the Bizarre.

THE PEACOCK DAHLIA FARMS ARE THE LARGEST IN THE WORLD and have the largest and best equipped warehouse and storage cellar, a section of which is shown above. It contains 11,288 sq. ft. of floor space and 125,420 cubic feet of space. It is built of concrete, with an electric light plant attached, and a heating plant located 75 ft. away.

OUR MAIN FARMS are located at Williamstown Junction, on the Atlantic City branch of the Reading R. R., Ferry foot of Chestnut Street, Philadelphia, one mile south of the famous White Horse Pike from Philadelphia to Atlantic City, also $2\frac{1}{2}$ miles by direct road from Berlin.

We cordially invite all to visit and see for themselves the **LARGEST DAHLIA FARMS IN THE WORLD—THE HOME OF THE WORLD'S BEST DAHLIAS.**

ORDER EARLY It will greatly facilitate shipments if orders are sent in early. We aim to send out orders the same or the next day after receipt, but during the rush season this is impossible—hence the advisability of ordering early. If you so desire we will reserve and send at planting time or any date you name, otherwise orders go out at once weather permitting.

Guarantee. We guarantee every plant, bulb or root sent out by us to be just as represented, absolutely true to name, reach destination safely in perfect condition, and prove entirely satisfactory; we will cheerfully replace any that should prove otherwise. You run absolutely no risk in ordering from us.

Terms. Cash with order. Remittances may be made by Bank Draft, Post Office or Express Money Order, or Registered Letter at our expense and our risk.

Forwarding. Dahlia Roots and Plants are sent by mail postpaid at prices named herein. By express Dahlias are billed at "2nd class" rates and in most cases are one-third ($\frac{1}{3}$) or $33\frac{1}{3}$ per cent. less than regular merchandise rates.

Errors. While we exercise every care, errors may occur occasionally. In such a case kindly notify us at once, and correction will be promptly and cheerfully made.

Name and Address. Be sure and write name and address plainly on each order or communication.

WORLD'S BEST DAHLIAS

For 40 years we have grown Dahlias, and since 1895 have been recognized, by those who know, as not only the largest growers in the world, but growers of THE "WORLD'S BEST DAHLIAS." It matters not to us whether a superior variety is produced on our own farms, or on a brother grower's. Insulinde came from Holland; Mina Burgle from California. For the World's Best, we must secure the best from the world's growers, and use them to test out our own production before introducing them. This we owe to ourselves and to our Dahlia loving patrons. But, before taking up the subject of new introductions, we must tell you of the wonderful "Kelley patents" in natural color photography, and used by Prizma Inc.

MOVING PICTURES OF DAHLIAS, IN NATURAL COLORS

We have always been deeply interested in color photography and considered it a great compliment and honor, when the Prizma Co. wanted to produce an educational moving picture of Dahlias in natural colors, they selected the PEACOCK DAHLIA FARMS, after having sent the following letter to the larger growers:—

"We are makers of motion pictures in natural colors and are considering illustrating the variety of Dahlias. We would like to show particularly the methods used in creating new varieties; the different types of flowers and in general, produce an instructive reel that would be of value to all lovers of Dahlias, as well as to the public in general.

"It is doubtful whether we can give you any direct advertising on such films, as they are released in theatres throughout the country for pay and any advertising must not be obvious. Nevertheless, it may be possible for us to do so and we are willing to try to show that these pictures were taken on 'so and so's' farm. If you are willing to co-operate with us and can give us some attention for about three days, while we are filming this picture, I would be glad to hear from you to that effect and as to the best time to take the picture."

(Signed)

PRIZMA INC., per Wm. V. D. Kelley.

The picture was first shown by the Stanley Corporation of America in the New Stanley Theatre, in Philadelphia, during February, 1923.

It is a wonderful picture, inasmuch as it shows the great fields of this most gorgeous of all flowers in all their real glory; the full riot of their natural colors and tints. It shows all the various operations so vividly in natural colors that all seeing it, can enjoy the floral feast almost as realistically as if they were right there among the flowers. If you want to see this wonderful picture get your local theatre to secure the film: **PRIZMA, THE DAHLIA, IN NATURAL COLORS.**

NEW INTRODUCTIONS FOR 1924

Never has the interest in New Dahlias been so keen as at present, and never have Dahlia lovers been so discriminating. A New Dahlia now must surpass all existing varieties, or be entirely distinct, to secure recognition. Never have we seen so remarkable a collection of New meritorious varieties as the first 44 rows in our trial grounds the past season. They were in a class by themselves, and head and shoulders above all the rest stood our greatest masterpiece:

RODMAN WANAMAKER Decorative-Paeony. Shown in natural colors on the front cover page. We believe this to be the largest Dahlia in the World today, a belief shared by the tens of thousands of visitors at our farms. It was subjected to the most severe tests possible. In our trials it was side by side with Insulinde. Also the entire length of our trials we had two rows of Rodman Wanamaker and one row of Insulinde, that we could not only note the comparison with that wonderful variety, but compare it with each variety individually. Then in our private tests of 500 of the best newer varieties from all sources, we had a full row of Rodman Wanamaker. No more rigid tests could be made, and every one, without exception, pronounced it the largest and finest of them all. One visitor measured 26 consecutive flowers down one row, they ranged from $9\frac{7}{8}$ to $11\frac{1}{8}$ inches in diameter, and they were not disbudded.

In color again this variety is entirely distinct and, beside it, all the bronzy Autumn shades are either pale or dull. The buds are pale lemon yellow as is each petal as it first expands, but it quickly develops into a golden bronzy salmon pink and finally into a beautiful bright shade of Ochraceous Salmon, with a reflex of spinel pink. The flowers are of splendid texture, with a luminous sheen. The plant is a most profuse bloomer and they are a gorgeous sight with the many shades and tints of Autumn so harmoniously blended.

The plant is a giant; strong, sturdy and vigorous, with glossy green luxurious foliage, lace-like in formations, and produce the giant flowers facing, on long straight stiff stems. The flowers, although so large, have, owing to the beautiful formation, no appearance of stiffness or heaviness. Taken in all this is an absolutely perfect Dahlia. It is the largest and finest Dahlia in the world today, and eventually will be in every Dahlia lovers collection.

Nor is this our opinion on our own grounds. Mr. M. E. Douglass, of Woodbury, N. J., one of the best informed and enthusiastic dahlia authorities says: "In September I had four blooms at one time on my Rodman Wanamaker plant, and in my opinion and all my friend's it was the largest and best dahlia in bloom in my entire collection at that time." 6 ft.

We offer strong plants ready May 1st, at \$10.00 each; 3 for \$28.50; 6 for \$55.00; 12 for \$100.00. Roots ready March 1st, \$25.00 each.

PRIZES FOR RODMAN WANAMAKER BLOOMS

Class 1.—\$50.00 for the largest bloom to be measured with two witnesses and attested by notary.

Class 2.—\$50.00 for the largest bloom exhibited during the season, at any fair or exhibition, properly certified by the judges, one prize only.

Class 3.—\$25.00 to the grower winning most 1st prizes.

Class 4.—\$5.00 to each and every grower winning first prize for the largest Dahlias in the show where there is competition. This is in addition to the regular prize.

All flowers must be grown by the contestant in Class 1, and may be measured and certified, etc., when the flower is at its best. In Class 2, the \$50.00 is a sweepstake to be awarded to the grower that exhibits the largest bloom during the season and of course cannot be awarded until the season is over. This applies also to Class 3. But in Class 4, as soon as a verified report is made we will mail checks promptly. Please note there must be competition and it is not to be awarded if there is a larger flower in the show.

The "Big 4"; Rodman Wanamaker, Zeus, Katherine Donges and Mae Grefe

ZEUS Decorative-Paeony. The illustration gives only the form of this largest and most wonderful of all Dahlias. This bloom was $10\frac{1}{8}$ inches in diameter and 5 inches deep. It has not only size and a cane stiff stem, but beautiful form as shown by the photograph. The color is a wonderfully rich glowing red, each petal distinctly tipped yellow. A giant without a trace of heaviness. So artistically built and richly colored that it attracts, it holds, it fascinates. The plant is medium dwarf, 3 to 4 ft. high, as we grow it in field; strong, sturdy, healthy and vigorous. A free and continuous bloomer. Strong plants ready May 1st. \$10.00 each. A few roots until exhausted \$25.00 each.

NEW INTRODUCTIONS FOR 1924

DREAM O' LOVE Paeony. One of the most strikingly effective of this class. The flowers are of large size and beautiful form, with outer petals reflexed, whorled and twisted; while the inner petals are also whorled and twisted, but incurve. The color is the brightest, most luminous geranium red, richly shaded, and each petal is distinctly tipped yellow. The flowers have great depth and substance; are splendid for cutting and decorations. The plant is a very sturdy grower, of branching habit and produce the flowers freely on stiff stems; making it an ideal garden plant. Roots \$2.00 each; plants \$1.00.

DR. STEM Paeony. The best of all red paeony flowered dahlias. Entirely distinct in every way. The early flowers are 8 to 10 inches in diameter, are produced erect on cane stiff stems and are full to the center. The later flowers are of the same size but of beautiful paeony form, in many cases the yellow center is completely covered with fantastically formed inner petals. The color is a bright scarlet red, reflex engenia red. The plant is a sturdy, vigorous grower. An acquisition that will find its way into every paeony collection. 4 ft. Roots \$5.00; plants \$2.50.

For special list of New Exhibition Dahlias see page 30

MOTHER Hybrid-Cactus. A glance at the illustration above, reproduced from a photograph, will tell the whole story of its name. It is so symbolic. Pure white with the slightest tint of color. It is large, so full, and carried proudly on an erect stem. The stem is well supplied with healthy green foliage, giving a still more striking resemblance of that old fashioned Mother. It is going to be universally grown—for exhibition, cut flowers and the garden. The plant is a strong sturdy grower and a free and continuous bloomer. Strong plants ready May 1st, \$2.50. Roots \$5.00.

GLADYS PEACOCK Decorative. A massive flower that lasts longer than any other variety on the plant, with the possible exception of Colossal Pink. The flowers are of immense size and borne facing on very long, stiff stems. The color is lemon yellow at base of petals, shading to rose red; reflex rose, veined, light mallow purple. The plant is a very strong, vigorous grower and a free bloomer, for such a gigantic flower. The form is fine, with very full high pointed center. A splendid exhibition variety, and the kind we all like to give our friends, but most too large for commercial cut flowers. 7 ft. Roots \$5.00 each; plants \$2.50.

PINK ROSEBUD Cactus. One of the loveliest dahlias grown. As a cut flower, it is the best of all pink cactus and entirely distinct. The buds are long, pointed, and the petals unfold like a long, pointed rose bud, one petal at a time. The buds are carried erect, like a rose bud and when cut in this form, can be shipped long distances. It is perfect cactus form, when fully expanded, and always full to the center. The stems are long, straight and rigidly stiff. The color is pure pink, tinting lighter toward the center and tips of petals. The plant is a strong, sturdy grower, and a free and continuous bloomer. 4 ft. Roots \$2.00; plants \$1.00.

Dream Girl is the most exquisitely colored dahlia in existence

KATHRYN DONGES Hybrid Cactus. The greatest of all yellows. The size is immense. 9 to 10 inches; deep with a full high center, always full in marked contrast to Yellow King, which it resembles, only in form, being more than twice the size and such stems 2 to 5 feet long and as straight and erect as an indian spear. Wherever shown it has been acknowledged the greatest yellow cactus in existence. The plant is 5 to 6 feet high and branching a truly colossal dahlia, beautiful form and soft color, with the numerous long narrow petals, that there is no heaviness. Stock limited, while it lasts. Roots \$5.00 each. Strong plants May 1st, \$2.50.

GOLDEN GEISHA Cactus Paeony. A cross of Golden Gate and Geisha, and a great acquisition to the paeony class. Color clear, light canary yellow with a scarlet suffusion or blotch on each petal, most effective. The form is hybrid cactus and perfectly full at first, but later shows the Geisha form as well as a bright and refined Geisha color. The plant is a very strong vigorous grower and free bloomer, in good, long, stiff, graceful stems, especially fine for cutting and artistic decorations. 5 ft. Roots \$2.00; plants \$1.00.

HELEN RANKIN Decorative. One of the most popular new varieties that has elicited the praise of the thousands of visitors at our farms. It is a cross of Rosa Nell and one of our seedlings. The color is lighter and brighter than Rosa Nell and an early and profuse bloomer on long, straight, stiff, slender stems. The flowers are borne erect. A great acquisition for the garden and as a commercial cut flower. 3 ft. Roots \$5.00; plants \$2.50.

LAURA ENTREKIN Hybrid Cactus. A giant new dahlia that will fill a long felt want. The color is deep rose pink, reflex pure rose pink. The form is absolutely perfect and borne facing on long stiff stems. The flowers are of great substance, lasting well on the plant and after cutting. In our trials it was larger than either Mrs. I. de ver Warner or Mrs. Salsbach and better color. The plant is a very strong, robust grower with luxuriant foliage. 4 ft. Roots \$3.00; plants \$1.50.

Visit our farms next September and see all the latest varieties in bloom for comparisons

MRS. HUGO KIND Decorative. The above illustration is from a photograph taken late in October, which shows how this remarkable dahlia holds its full center to the last. It also shows the beautiful, irregular, contours of the petals, and the regal carriage of the flower, on the cane stiff stems. But the flower must be seen to appreciate the bright, rich shade of red; bright velvety carmine; reflex spectrum red. The size is large to very large 8 to 10 inches and deep; which, with its wonderful color—the finest red in dahlias—will make this variety a universal favorite, for exhibition and cutting. The plant is a very sturdy, healthy grower. Height 4 feet. Roots \$5.00 each. Plants \$2.50 each.

MAE GREFE Colossal Cactus. This is the largest pink cactus in existence. It might be called a giant, stiff stemmed "Colossal Peace," as it is not only larger than that grand old favorite but has long, stiff stems. It is a strong, vigorous grower and free bloomer. Color, pure pink, shading to rose pink, tinting lighter at center and tips of petals. A grand acquisition that will be universally grown. 5 ft. Roots \$10.00 each; plants \$5.00 each.

MRS. FRANK THOMAS Hybrid Cactus. Pure white, of fine form and great substance. The large flowers are borne facing on strong, cane, stiff stems. The plant is of dwarf, branching habit, an early, free and continuous bloomer. On account of its habit, will be especially valuable for the garden. A grand front row variety, and excellent for exhibition and cutting. 3 ft. Roots \$2.50; plants \$1.25.

ELIZABETH B. FITLER Hybrid Cactus. A new variety that appeals, one that we never tire of. It is everything that Etendard de Lyon is not. The flowers are larger, much fuller, on long, slender, stiff stems and was the first to bloom in our trials and were a mass of long stemmed, perfectly full flowers, when killed down by frost. Also the color is better, being a true purple, with a reflex of phlox purple. The plant is a free grower, with rich dark green foliage. The best of this class and color. 5 ft. Roots \$5.00 each. Plants May 1st, \$2.50.

HARRY DEITZ Hybrid Decorative. The illustration shows the splendid form and straight, stiff stem. The flowers are large, of wonderful texture and last a long time on the plant and after cutting. A very strong vigorous grower and profuse bloomer. Color, light lemon yellow, suffused and overlaid rose red, tipped lighter; a most pleasing and effective color combination. Splendid for exhibition, cutting or the garden. Height 4 ft. Roots \$3.00. Plants \$1.50.

NEW INTRODUCTIONS OF 1923

Another year has still further demonstrated the superior merits of these new varieties. The great demand the past year so depleted our stock of some that we have been unable to reduce the price as we wished to do; but considering the quality, our prices are very reasonable.

DREAM GIRL Decorative. An exquisite new variety with an entirely new color combination that has attracted the greatest attention. Pale lemon yellow at base of petal, shading to rosy red at tips; reflex pale pink and white. The flowers are of good size, of beautiful, regular form and borne well above foliage on straight stiff stems. A fine dwarf branching grower, 3 to 4 feet. One of the loveliest of all dahlias and entirely distinct. An acquisition. Roots \$5.00 each; plants \$2.50.

SENATOR BAIRD Decorative. A noble flower of immense size, beautiful regular form and borne erect on cane stiff stems. The color is the richest, glowing red. It is the finest of all red decoratives for exhibition or for the garden. The plant is the finest we have ever seen—strong, sturdy with luxuriant dark glossy green foliage. The flowers are very full to the center, up until frost. 4 ft. Roots \$5.00; plants \$2.50.

VERNA FOWLER Cactus. Light yellow, penciled and tipped pink and carmine. The plant is a very vigorous grower, 5 ft. high and produces the flowers freely on long, graceful, stiff stems. A bright and effective cut flower and splendid garden variety. Roots \$1.00.

***Ella May Rankin.** A new departure in dahlias. Gigantic size, marvelous coloring, lovely formation*

COLOSSAL PINK A most wonderful new variety that has all the good qualities of Colossal Peace, with none of its faults. It is fully as large in diameter, but several times as deep; of massive build, always full to the center and will last longer on the plant than any other variety. Color clear pink, tinting lighter at tips of petals and at center. Plant dwarf, 3 to 4 ft. high. A strong, vigorous grower, of branching habit, and an early and profuse bloomer. For exhibition it is a winner—immense size, fine form, pure color and keeping qualities. An ideal garden plant. Roots \$5.00 each. Strong plants ready May 1st, \$2.50.

JANE HALL Decorative. A grand decorative of massive build on erect stems. The petals reflex to the stem, while there are many more to open at the center. Color, clear buff yellow, with a bronzy suffusion on the outer petals, which sets off the bright high full center. The plant is an early and continuous bloomer. When disbudded and from a little distance they resemble those huge yellow chrysanthemums. Roots \$2.00 each; plants \$1.00.

LILY LAWRENCE Hybrid Decorative. A splendid new variety that is not only an early and free bloomer, but continues until frost and never shows an open center, even late in the fall, when so many do. Hence it is a fine exhibition, garden and cut flower dahlia. The form is of the beautiful Bertha von Suttner type, with a full high center and the outer petals long, irregular, twisted and whorled turbine like. The color is light yellow, the outer petals suffused and overlaid jasper red. A very pleasing blending of colors that is most effective. The plant is a sturdy grower, 3 to 4 ft. and the large flowers are borne facing on rigidly, stiff stems. A great acquisition. Roots \$5.00; plants \$2.50.

MANATEE Decorative. Unique in form and massive in build, being extremely full, with full high center, and the petals are finely cleft. Also distinct in color; yellow overlaid flame scarlet, back petals darker, reflex lighter. The plant is a dwarf sturdy grower, producing the flowers freely on erect stiff stems. A popular Autumn shade as a cut flower and an ideal garden plant. Roots \$2.50 each.

There is no dullness, coarseness or weakness in the New Peacock Creations

Isabel Street

ISABEL STREET Decorative. A grand new variety that has attracted the greatest attention of visitors at our farms and wherever exhibited. From all over the country we have heard nothing but praise. Hundreds of customers have written to tell us how much larger and handsomer their blooms were than the colored plate. The flowers are large and are produced on long cane stiff stems. It is an early and continuous bloomer, one of those varieties that bloom right through the hot Summer months. The color at base of petal is bright yellow, shading to bright rose red, with white tips; reflex pale pink. The large long stemmed flowers are very full, the outer petals reflexing to the stem. The plant is a strong, vigorous, upright grower, six feet high, producing the big, long stem flowers freely and continuously until frost. Owing to the large size, fine form and coloring **Isabel Street** is a splendid exhibition dahlia and with its heavy texture and keeping qualities it has proven a wonderful commercial cut flower. An acquisition to every collection. Strong roots, \$3.00 each.

SPECIAL OFFER No. 3. One root each of Isabel Street, Mary Steffenson and Queen Elizabeth, for \$4.00.

Mary Steffenson

MARY STEFFENSON

The natural color reproduction from a photograph gives only an idea of the delicate loveliness of this wonderful variety—the most delicately beautiful dahlia in existence. The color, at base, citron yellow, outer half creamy white; both yellow and white mottled and overspread with rosolane pink. Many petals showing faint yellow along midvein. All dusted over with tiny glistening crystal like particles as of gold dust. Form full and graceful. Size large, 7 inches and more across, with great depth. Petals recurved, acuminate, none cleft; edges generally rolled in; slightly whorled or twisted tips. Blooms, erect to facing on cane stiff stems, well above foliage.

The plant is a strong vigorous grower of branching habit, producing the large, perfectly full flowers freely, on long, cane stiff stems until frost. Height 5 to 6 feet.

Mary Steffenson is entirely distinct from any other Dahlia and we only wish every reader could have seen our plants last October and the wonderful buckets of cut blooms in our cut flower cellar. They take on extra color and size as the season advances in marked contrast to most Dahlias. How they enjoy the cool October weather.

They should be planted late as the lovely tints do not develop perfectly in hot dry weather. They should have thorough cultivation and be disbudded. The buds are very long, slim and pointed. Roots, \$1.00 each.

SPECIAL OFFER No. 3. One root each of Isabel Street, Mary Steffenson and Queen Elizabeth for \$4.00.

OLIVE NYCE Cactus. A splendid new cactus of splendid form, with long, slightly incurved petals. The flowers are large and borne facing on long stems. Color a beautiful, clear, soft salmon-pink, tinting lighter at the center and the tips of the petals. The plant is a strong, vigorous grower and profuse bloomer. A splendid exhibition and cut flower variety. 5 ft. high. Roots \$3.00. Plants ready May 1st, \$1.50.

MRS. S. L. AUSTIN Hybrid Cactus. Pure white, of fine form and held facing on long, stiff stems. Flowers are very large of good substance and one of the best for cutting. The plant is a very sturdy, robust grower. A splendid variety for exhibition, commercial cut flowers and the garden. 6 ft. Roots \$2.00; plants \$1.00.

PRISCILLA AGNEW Paeony. The most beautiful and valuable of all white paeony flowered dahlias. The color is so clear and pure, without spot or blemish and the yellow center so clear that the color contrast is chaste and effective. The flowers are snow white, of large size, beautifully formed and held facing on long straight, slender, but stiff stems. A great favorite for weddings and other decorations. The plant is a strong, free grower and profuse bloomer. One of the very best for the garden. 5 ft. Roots \$1.50; plants 75 cents.

SARAH HARLEY Decorative. A superb new variety that has made a place for itself in the cut flower market and as a garden plant. The color is clear rose pink, tipped white, a lovely combination. The flowers are of good size, fine regular form and borne erect on stout, cane stiff stems. The flowers are of great substance and keep well after cutting. 4 ft. Roots \$2.50; plants \$1.25.

IDA FRIES Paeony. Very bright and attractive. Brilliant crimson, shaded plum, tipped lighter, making it very effective. The petals are beautifully irregular. Stems stiff holding the flowers well above the foliage. A fine grower and free bloomer. Roots \$1.00 each.

They are bright, with good form, and are splendid bloomers, with good stems

MRS. RINK Hybrid Decorative. One of the most daintily, beautiful dahlias in existence, a flower that has attracted the greatest attention the past three years. The flowers are medium large, about 6 to 7 inches and beautiful color and texture. They are thoroughbred, as shown by the way they are carried on the slender cane stiff stem in the illustration. The color is a soft, clear seashell pink, without spot or blemish, except when it comes a soft, clear, salmon pink. The plant is a vigorous grower, producing the exquisite flowers in profusion. 4 ft. Roots \$3.00. Plants \$1.50.

You can depend on every Dahlia ordered from us to give satisfaction.

KISSIMMEE Colossal Ball. A marvelously colored variety, that, for absolute perfection, is in a class by itself. The form is perfect, with a full high center, while the giant petals reflex to the stem. The flowers are borne facing on long stiff stems well above the foliage. Color a wonderful blending yellow, gold and ochre; reflex pale amaranth pink. As the petals are cupped or partially quilled, the color effect is most effective. For exhibition, the garden or for cutting, it is the best of its class. 6 ft. Roots \$2.50. Plants \$1.25.

Colossal Cactus Dahlias

These grand varieties are of giant size, having long broad petals, approaching the hybrid cactus in form.

ATTRACTION. Large, elegant flower of a clear lilac rose, borne on long stiff stems and a Dahlia of exceptional merit. A true paeony-cactus type. Each \$0.75

COLOSSAL PEACE. A massive cactus of the Kalif form and size, often measuring eight inches across. Later in the season when flower shows a centre it is a wonderful paeony Dahlia. Color creamy white at centre, shading violet rose with lighter tips. The plant is a very strong vigorous grower, of branching habit, an early and profuse bloomer on long stems. 1.50

and to grow, be true to name, and give entire satisfaction.

CRIMSON KING Cactus. The illustration above gives a very good idea of this grand Cactus Dahlia, so far as formation is concerned, but it must be seen to appreciate the dark rich crimson color, full center and long rigid stem. The plant is a very strong vigorous grower and a wonderful bloomer late in the season when most cactus come open centered. It is one of our Florida productions that does even better in the North than in the South. A cross of Yellow King and Norman and is far stronger than either parent. The flowers are of perfect shape with long narrow, incurved and twisted petals. Plants 5 ft. high. Roots \$2.00 each. Plants \$1.00.

WHAT OTHERS SAY

London, Ont., June 26, 1923.
PEACOCK DAHLIA FARMS, Berlin, New Jersey, U. S. A.

Dear Sirs: I herewith acknowledge receipt of three dahlia bulbs you sent, replacing ones that did not grow in my order of this and last year. I was very pleased at your promptness in replacing these dahlias. I have had a great deal of satisfaction in the last two or three years in dahlias I have bought from you and hope to continue increasing my collection from your Farms, by a few each year. I shall also recommend you to any of my friends.

Yours very truly, J. G. BOUCHER.

Loyalton, Dauphin Co., Pa.
PEACOCK DAHLIA FARMS, Berlin, New Jersey.

Dear Sir: I never dealt with a firm that was as square as yours. Just a few days after writing you, I received the bulbs Mary Steffenson and Queen Elizabeth, a replacement order. The other Dahlias are thriving nicely. I am already (filling) or rather deciding on my order for next year. I shall recommend your firm to my friends.

Respectfully, Mrs. E. W. ROMBERGER.

For special collections, for different purposes, see page 29.

SHEBA Decorative. A remarkably charming and effective variety that is sure to become a universal favorite. Color, petal tips white; broad band of white along midvein toward base, both edges cardinal—darkest on opening petals at center. Form: Fluffy, loose, artistic, stylish. Size: 5 to 6 inches, with beautiful full, pointed center. Petals recurved, twisted and whorled; some half spiral edges, some inrolled trowel like; other edges rolled back. Tips acuminate, none cleft. Some petals project forward giving depth. Petal line effect wavy and sinuous. Blooms facing on perfect stem well above foliage. 5 ft. \$1.00.

OCTOBER. Autumn yellow suffused and tipped red. A splendid "Autumn shade" variety, that remains perfectly full to the center until killed by frost in November, the large flowers are produced freely and held facing on the long stiff stems. \$0.75

PATRICK O'MARA. This sensational new decorative variety was awarded a Gold Medal by the American Dahlia Society, as the best Autumn shade variety in existence. The color is an unusually soft and pleasing shade of orange-buff, slightly tinged with Neyron rose. It is very large, 7 to 9 inches in diameter, and borne on long strong erect stems. It is a strong vigorous grower and free bloomer. The giant flowers are well formed, while the outer petals are most pleasingly irregular. 1.00

PORTHOS. The nearest to "blue" dahlia yet produced. A beautifully formed lavender blue decorative, of medium to large size produced on long stiff wiry stems. Flowers susceptible to the sun. Should be planted to get partial shade during middle of day, or planted to bloom late, after the hot weather is over. 1.00

PRINCE OF ORANGE. A giant flower, 7 to 9 inches across, rich orange, shaded scarlet. The flowers are produced on magnificent cane stiff stems, 3 feet long and borne erect. A wonderful exhibition flower. 1.00

ROBERT SHEPPARD. This is our D. 1, that has been admired so much for its many all-around good qualities. Color is ruby red, shaded and suffused maroon—a color entirely distinct. Flowers are large, 7 inches and more across, produced freely on long graceful stems. It is an early and continuous bloomer. Height, 5 feet. 1.00

RUTH ROLAND. Sulphur yellow, tipped and suffused mauve rose. Large well formed and a strong vigorous grower.75

SEBASTOPOL. A Burbank creation that has never been equaled in its class and color. Rich golden scarlet, always full to the center.25

SHELLIKOFF. A splendid big, deep, garnet flower, of great substance, produced freely on erect stems. 1.00

STUNNER. Very large, soft yellow, of finest form and borne erect on strong stiff stems. A free bloomer. One of the best. 1.00

QUEEN ELIZABETH

This new Paeony Dahlia shown in color above is the highest type yet produced in the class. Note the wonderful formation of the curled center petals, which completely cover the center. This illustration is reproduced from a photograph of a flower over 7 inches across. The color is a beautiful rosy mauve. The large flowers are facing, on very long (2½ to 4 feet) stems, slender, yet stiff, holding the flowers erect. The plant is a very clean, strong grower and free bloomer, every shoot produces a flower. It is a variety that just will bloom. A flower that should be in every collection. Valuable for cutting, exhibition and the garden. The demand for Queen Elizabeth has exceeded our expectations. Each year it has been double the preceding year, until last year (the fourth) it was our best seller. It seems to do well all over the country, and unlike most dahlias, it improves as the season advances. The color improves, they keep longer and are at their best just before frost. Roots, 50 cents each.

SPECIAL OFFER No. 3. One root each of Isabel Street, Mary Steffenson and Queen Elizabeth, as shown on colored insert pages, for \$4.00.

SPECIAL OFFER No. 4. One root each of the nine remarkable single and century dahlias shown on next page for \$2.00.

SPECIAL OFFER No. 5. One each of the 12 varieties shown on the 4 colored insert pages, for \$5.50.

Single Dahlia Colored Collection

Above we show a collection of 9 lovely single dahlias in natural colors. Full descriptions will be found under single and century dahlias. For great range and purity of colors, richness of shades, and delicacy of tints, no flower can compare with the newer single dahlias. All are early profuse bloomers, with long, slender, wiry stems. Wonderful for all cut flower purposes, and a riot of colors in the garden.

No. 1, Mrs. Jos. Lucas. A combination of Autumn shades. One of the largest and handsomest; each, 25c.

No. 2, Gloria. Very bright and effective flowers of great substance on long rigid stems; each 25c.

No. 3, Praxitelles. Very effective, the plant is dwarf and branching. A free and continuous bloomer; each 25c.

No. 4, Gloxinia. In marking and brilliancy of color resembles the gloxinia so much as to suggest the name; each 50c.

No. 5, Evelyn Century. Very bright and effective, an early and profuse bloomer. Delicate and chaste; each 25c.

No. 6, Cream Century. A delicate creamy white. Early and profuse bloomer; each 25c.

No. 7, George Young. Immense size clear yellow; strong, vigorous, with long stiff stems. Best yellow; each 35c.

No. 8, Autumn. A wonderful combination of Autumn shades. Large, free and fine; each 35c.

No. 9, Barton. A glorious flower of immense size and rich glowing crimson color; each 50c.

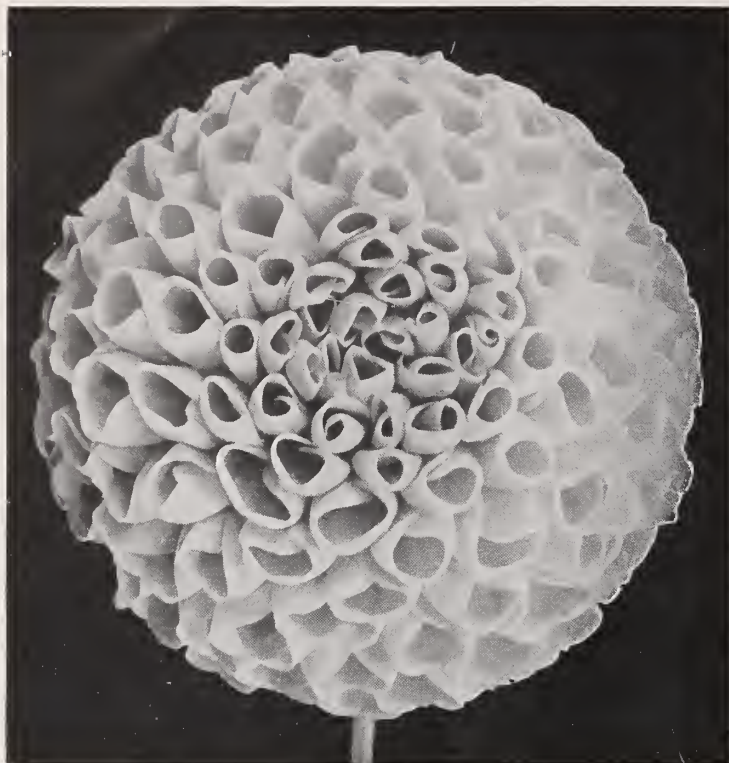

SPECIAL OFFER No. 4. One root each of above for \$2.00.

Paeony Flowered Dahlias

This is one of the newer types also called the Art or Artistic Dahlias. The true type resembles the Japanese Paeony; yet several of the most valuable and popular varieties differ from the true type.

Ann Duskin. A new and entirely distinct variety, with very dark rich foliage. The flowers are of good size, richest maroon, shading to jet black at center as the flower is opening. The fully open flower, has a dark instead of yellow center, like Ami Barillet. The plant is a free grower and produces the beautifully formed flowers on long slender erect stems.....	Each \$1.00
--	----------------

AUTUMN GLOW. A most distinct and striking autumn shade. The outer petals are deep pinkish scarlet, with yellow markings and tip, and each row of petals opens up softer against the darker background of the outer petals. A strong grower producing the large flowers freely on long stiff stems.....	.35
---	-----

BARON G. DE GRANCY. A waxy, almost pure white; a flower of excellent type, perfect form and purity of color. The blooms are borne profusely on long graceful stems.....	.25
BERNICE. Soft rose pink, very broad petals, very large flowers on stiff slender stems.....	.25
BILLIE. Color light rose, tipped violet rose with a suggestion of yellow at the base of the petals, the general effect being a bright rose pink. Flowers are of beautiful form with petals curved and twisted, averaging at least six inches across on long stems.....	.50
CANADA. One of if not the largest of all white Paeony Dahlias. The flowers are massive, with heavy petals, and are held erect on long stiff stems. An early, free and continuous bloomer. The plant is strong, vigorous and healthy, exceptionally fine for cutting, exhibition or garden.....	2.00
Cream Beauty. A very profuse blooming creamy yellow, with long slender stems.....	.25
Cream King. A beautiful pale yellow of exquisite form..	.75
DAINTY QUEEN. The color is a most pleasing shade of rosy lavender, the lower half of the petals altogether white, gradually becoming suffused with lavender.....	.50
DIANA. Very large rich glowing crimson. Blooms facing on long slender stiff stems.....	.75
DIEMONT VON BYSTEIN. Large white suffused and shaded blue lilac. Very fine form and a free bloomer....	.50
DR. JOHN LANE. A most pleasing Paeony of the Geisha type, but larger and softer in coloring, while the plant is much stronger and more vigorous, with dark healthy foliage. Color yellow, suffused golden orange at base of petals, shading to rich bronzy scarlet toward the center and tinting lighter at the tip.....	1.50
F. R. AUSTIN. One of the most striking and valuable Paeony Dahlias in existence. The beautifully colored flowers are of large size, averaging 6 to 8 inches across. Color, the outer petals are very long, creamy yellow, suffused, banded and shaded rich crimson; the inner petals are yellow at base tinting lighter, and suffused pink and crimson. The plant is a strong vigorous grower, an extremely early and free bloomer, and continues to bloom the entire season, making it most valuable for garden and exhibition.....	.50

FORDHOOK BEAUTY. An outstanding shade of bronzy red, delicately suffused with salmon and yellow. A beauty.....	Each \$0.50
GEISHA. The most striking color combination, golden yellow, changing to bright scarlet at the center of petal and back to gold at the tip. Giant flowers on long wiry stems.....	1.00

GOLDEN CENTURY. Rich golden yellow, suffused golden amber. Each \$0.35

JAMES WELLER. The finest of all single Dahlias, of largest size and the most beautiful color combination—a rich golden yellow, with one-third of each petal overlaid soft rosy red. The two colors blend most harmoniously and are very effective. The big flowers are produced freely on long stiff stems, and are remarkably long keepers. This variety is most striking and effective, and is one of nature's masterpieces. Height, 5 feet. 1.00

JESSIE. The greatest white single Dahlia in existence. Exquisite form, pure white, of large size and borne profusely on long slender but stiff stems.50

JOSEPHINE. Large pure white, free bloomer, stiff stems, very fine.50

OCALA CENTURY. Very large, clear red, tipped yellow; very effective.35

PEACHES and CREAM. A variety of such loveliness that we have always sold out before we could work up a stock. Color cream, suffused peach pink. 1.00

PENCILED CENTURY. Lilac pink, penciled and striped deep crimson.25

PINK CENTURY. Clear, soft pink, shading to clear deep pink. Very beautiful and chaste, long stiff stems.35

PURITY. This newest and best pure white century has been grown by the originator, who raised it from seed purchased from us, 9 inches across; perfect form on long stiff stems. 1.00

PURPLE CENTURY. Rich royal purple, immense size; a most popular color, beautiful form.25

Red Century. A free bloomer, red; of fine form and substance, cutting or garden variety.25

ROSE PINK CENTURY. The largest and best deep pink; enormous flowers on long three feet stems.25

SCARLET CENTURY. Bright glowing scarlet.25

SUNSET CENTURY. Most strikingly effective. Yellow at base of petal outer half deep rich vermillion.35

VELVET CENTURY. Rich velvety maroon, very fine.50

White Century. Very profuse bloomer and strong grower; this is a dark stem variety and is much harder than the light stem sorts.25

YELLOW CENTURY. A magnificent yellow of largest size, beautiful form and a profuse bloomer on long stiff stems. \$0.25

Special Offer No. 22.—One root each of the above 25 New and Superb Century Dahlias by Parcel Post, prepaid, for \$9.00.

Best Single Dahlias

The ordinary single Dahlias have been superseded by the Century Dahlias, but a few of the most beautiful or distinctive are appreciated, especially where color effects, smaller flowers or dwarf plants are needed.

EXHIBITION DAHLIAS

We have so many inquiries for the best of our new dahlias for exhibition that we give below a list of 29 varieties which for size, coloring, form, stem and keeping qualities, when properly grown will be most difficult to beat. In this collection we have four that were largest on our farms, while Rodman Wanamaker produced 26 consecutive flowers, not disbudded, ranging from 9 $\frac{7}{8}$ to 11 $\frac{1}{8}$ inches in diameter. We believe Rodman Wanamaker to be the World's largest Dahlia, while Zeus, Mae Grefe and Claire Kulp are wonders.

And yet size is only a fraction; the varieties below have all the other requisites, most notably, wonderful coloring and stiff stems. One of our customers, with only three years experience, won 9 prizes at a noted exhibition in spirited competition with experienced professional growers.

We especially recommend all these varieties and they are included in our guarantee of entire satisfaction.

WHAT OTHERS SAY

St. John, N. B., Oct. 26, 1923.

PEACOCK DAHLIA FARMS, Berlin, N. J.

Gentlemen: I exhibited Dahlias (many of them purchased from you) at the St. John Exhibition and won all the first prizes against eight other contestants. I have had many enquiries as to where I purchase my bulbs, so the thought occurred to me, that the best way to do was to send you the names of these parties and have you mail them your catalogue when it is ready. This would make sure of getting your catalogue into the hands of actual growers. I am enclosing another sheet with names and addresses.

Yours sincerely, J. H. BARTON.

Cressona Pa., April 10, 1923.

PEACOCK DAHLIA FARMS, Berlin, N. J.

Gentlemen: The dahlias arrived today. I wish to thank you for the fine tubers you sent me, I was surprised to find four tubers instead of the three I had ordered, I had no idea when I mentioned my disappointment with Kalif, last year that you would duplicate it, I appreciate it very much, you certainly do all you can to please your customers.

I can hardly wait until those dahlias bloom, thanking you again.

I am sincerely yours, MRS. FRANK KROMMES.

Relav, Md., December 26, 1923.

PEACOCK DAHLIA FARMS, Berlin, N. J.

Gentlemen: Please send me, at your earliest convenience, your 1924 catalogue of dahlias. I purchased some from you for a relative last year, and they were such a success that I wish to have some for myself.

Yours very truly, CHARLES E. EBBERTS.

Philipsburg, Pa.

PEACOCK DAHLIA FARMS:

Inclosed find check for \$4.00 for which please send me Dahlias as advertised in Sunday paper—"slip inclosed."

My sister got your \$1.00 collection last year and they were beautiful.

Yours truly, H. W. MATTERN.

321 Lafayette Ave., Palmerton, Pa.,
October 28, 1923.

THE PEACOCK DAHLIA FARMS, Berlin, N. J.

Gentlemen: I am very happy to give you the following report of the tubers received from you this season.

Isabel Street had three perfect blooms, at one time, and was even prettier than the picture in the catalogue.

Mrs. Leo Niessen, is a very unique dahlia, owing to its wonderful colorings, admired by all my dahlia friends.

Dorothy Peacock, had fine blooms, and the plant was very sturdy.

With kindest regards, for your interest, I am,

Very truly yours, JAMES M. STROHL.

Clifton, N. J., Jan. 25, 1923.

Dear Sirs: Will you please send one of your 1923 catalogues of Dahlias to my brother, who is a great lover of flowers, whose address is

Mr. George A. Smith, Waterbury, Conn.
and also one to myself who got from you last year. Your flowers are certainly wonderful.

Sincerely,

MRS. HARRY A. BURK.

Miamisburg, Ohio, March 14, 1923.

PEACOCK DAHLIA FARMS, Berlin, N. J.

Dear Sir: While visiting my daughter in N. J. last fall, we motored out to your Dahlia Farms one Sunday. I never would have believed they were so beautiful had any one told me and such size. I felt proud of my own dahlias before but since seeing those, I don't think so much of them.

MRS. IDA WEIR.

Basking Ridge, N. J., Oct. 28, 1923.

PEACOCK DAHLIA FARMS, Berlin, N. J.

Dear Sirs: I was told by a friend what wonderful Dahlias he had raised from your Bulbs and am asking you if you would kindly mail me your latest catalogue.

And Oblige, WM. BUNN.

Our descriptions and all statements in this catalogue are the plain truth.

SEVEN WORLD'S BEST DAHLIAS

Described below and reproduced in natural colors on last cover page.

CLAIRE KULP The greatest of all reds. It not only grows more than 10 inches in diameter, but it is the richest shade of red, has wonderful stems, is a splendid grower and a free and continuous bloomer. If we could have but one red, it would be Claire Kulp. The color is the richest cardinal, shaded garnet, with just enough yellow at the base of the petal to set off the red most effectively. All other reds look dull and commonplace in comparison. The immense flowers are held erect to facing on long, slender, stiff stems. The plant is a very strong vigorous grower 5 to 6 feet high, with luxuriant foliage. For exhibition, the garden, or for commercial cut flowers, it is the world's best red. Roots \$3.00 each; plants \$1.50.

SUNSET GLOW Again we have a world beater. It is larger than Red Cross and better color; it is always perfect in form and will produce several times as many flowers. A glance at the natural color reproduction on last page will give a general idea of the color and the way the flower is carried on its splendid stem. The color is yellow at base of petal, outer part overlaid flame scarlet, tipped yellow. The plant is one of the very first to bloom, of medium height, 3 to 4 feet, and branching habit. It is an extremely profuse bloomer and every flower is perfect. As it is larger and better colored than Red Cross, it is not only the best of this type for garden and commercial cut flowers, but a splendid exhibition bloom. Roots \$2.50 each; plants \$1.25.

MARY DORR One of the most beautiful of all cactus dahlias and the best of the deep pink and white type. A great improvement over Margaret Bouchon, inasmuch as it is not only larger and better formed, brighter colored flowers, but a much better grower and more profuse bloomer with better stems. The color is bright tyrian pink, blending to white at center of flowers and tips of petals; reflex amaranth pink. The form is perfect, with long, twisted somewhat incurved petals. The flowers are produced freely on long slender, but stiff stems. The plant is a strong, vigorous grower. As a commercial cut flower it was the best of this type the past two years. A splendid garden and exhibition variety. 4 ft. Roots \$2.00; plants \$1.00.

MRS. F. BERGHOLZ Pronounced the finest cut flower on the market the past season. A bold sturdy hybrid Cactus, splendid form and that beautiful clear pink that is so seldom seen in any flower is rendered more effective and chaste by the white tips and creamy white center. The form is absolutely perfect and borne well above the foliage on long stiff stems. The plant is a strong, vigorous, robust grower. The flowers are always perfect and will stand forcing for exhibition size. A splendid garden plant. 4 ft. Roots \$3.00 each; plants \$1.50.

MRS. J. HARRISON DICK Too much cannot be said of the merits of this wonderful garden and cut flower variety. It was named by the request of the late Mr. J. Harrison Dick, who did so much for dahlias in general and the American Dahlia in particular, before his untimely end. This is the very best of all the bronzy yellow garden and cut flower dahlias. In fact it was so fine, we used it exclusively for our cut flower trade for several years. See page 16 for complete description and illustration, also last cover page. Roots \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.

MRS. LEO NIESSEN Without question the very best cactus dahlia of its type and color. It is not only very bright and effective in early and midseason, being produced profusely on stiff stems, but late in the season, when so many varieties come open centered, it is always full and perfect. The flowers as shown on last cover page are splendid form and texture, hence splendid keepers, both on the plant and when cut. Color, a beautiful shade of scarlet red, blending to peach red at center of flower, with bright yellow at base of petal and at tips; reflex sulphur yellow veined and suffused pale peach red. A splendid bright, rich Autumn combination, at once most pleasing and effective. The plant is a very strong, vigorous grower and profuse bloomer. 4 ft. Roots \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.

SOPHY MOREY A giant Cactus that is ideal in every way; large size, fine form, long stiff stems, delicately beautiful color, a good keeper, vigorous grower and profuse bloomer. We have heard nothing but praise of this peerless dahlia, which has done so well in all parts of the country. Color white, lightly suffused and overlaid phlox purple. The plant is a splendid, sturdy grower, producing the very large flowers facing on straight, slender, cane stiff stems. An acquisition for exhibition garden and commercial cut flowers. 4 ft. Roots \$2.50; plants \$1.25.

SPECIAL OFFER No. 2.—The seven world's Best Dahlias described above are absolutely the best in their colors and types. They combine all the qualities that go to make the perfect Dahlia. The complete collection, one root each—7 in all for \$13.00.

ROSALIA STYLES

Colossal Paecy. The largest and best pink of this class. Beautiful form, immense size, stiff stems, strong, vigorous, sturdy plant, a free and continuous bloomer, while last but not least, a wonderful live lustrous color—bright tyrian pink, tipped lighter; reflex pink. The plant is a strong, vigorous, sturdy grower, of medium height (5 feet), branching and producing the giant flowers freely on long cane stiff stems. A superb cut flower variety, on account of its clear color, good stems and remarkable shipping and keeping qualities. The early flowers are quite full to the center, on first opening, giving good depth. On the exhibition table, the 8 to 9 inch flowers are held erect without support by their own stems. The plant is simply perfect for the garden. Has attracted the greatest attention wherever seen and will be universally grown. Strong roots, \$3.00 each.

SPECIAL OFFER No. 1. We will send one strong root each of Rodman Wanamaker, Betty Austin and Rosalia Styles, shown in natural colors on 1st, 2nd and 3rd cover pages for \$28.00.

SPECIAL OFFER No. 2. One root each of the seven exquisite new dahlias shown in natural colors on 4th cover page and described on page 32 for \$13.00.

SPECIAL OFFER No. 3. One root each of Isabel Street, Mary Steffenson and Queen Elizabeth, as shown on colored insert pages for \$4.00.
